Wednesday 5th July 2023

- 10.00-11.30 **Paprikanet Project Meeting** - Organization and website presentation (<https://meet.google.com/gyw-bjyz-bcw>)
- 12.00-12.30 **Christian Zidorn Kiel University, Kiel (Germany)** -
Field trip introduction. Excursion planning, plant determination, collection of plants for scientific studies, and proper documentation of plant collections for phytochemical and phytopharmacological studies. After a short introductory lecture highlighting the challenges of how to plan an excursion, how to determine plants, and how to document properly such collections, we will together have a close look at the biodiversity close to Maratea during a dedicated field trip. The region around Maratea offers a high level of biodiversity due to the structured landscape, a variety of soil types, and its Mediterranean climate. In conclusion, I will give a brief introduction into the Mediterranean Flora as source of novel bioactive. Due to the hilly environment proper equipment (in particular shoes, but also dresses for outdoor activities, including sunscreen and some water) and a minimum level of fitness will be required. In case you have, please bring your own camera and books for plant determination.
- 12.30-13.30 **Light Lunch**
- 13.30-16.30 **EVRA s.r.l. tour**
- 17.00-19.30 **Guided Bucolic Walk**
- 21.00 **Dinner and Disco party**
